

Peatbog informal working group

During the 18th European Colloquium of Arachnology (High Tatras, Slovakia) an informal working group on peatbog studies was established. In the first phase, all arachnologists working or planning to work on peatbog-dwelling spiders, harvestmen and pseudoscorpions are asked to contact me (the coordinator of the group) either by e-mail (sepkopo@utu.fi) or by letter (S. Koponen, Zool. Museum, Univ. Turku, FIN-20014 Turku, Finland).

Please, give the following information: name, address and your research theme/plans. All persons responding will be contacted later for further discussions in order to evaluate if it is possible to start some joint projects and to get funding for research.

Seppo KOPONEN
